**“Doing the Work that America Needs Done.”  
A Rock Star?**

**CHECK OUT YOUTUBE'S  
“PUTTING PEOPLE TO WORK BUILDING WIND TURBINES”**

**Manistee, Michigan** - If you're interested in learning how a general manager of a manufacturing plant in Manistee, Michigan is becoming known as a rock star, visit the web at <http://www.youtube.com/watch?v=Q-2purpZXFk>.

This YouTube segment spotlights the new small wind power generating system “Windspire” that will be manufactured beginning April 20, 2009 in a Manistee, Michigan plant.

After visiting the web, mark April 20, 2009 on your calendar to join Governor Granholm and other honored guests in the launch of this new wind energy product of global significance! The event is scheduled for 1 p.m. at MasTech Manufacturing, located at 100 Glocheski Drive, Manistee and will include manufacturing plant tours.

A rock star? Perhaps not.

But it's a new wind energy product that will rock the world. And, as President Obama says in this YouTube segment, “it's doing the work that America needs done.”
